### ABOUT THE INSTITUTE

Terna Engineering College is one of the well known technical institute with 'A' grade from Maharashtra Government and having ISO 9001 quality management system. It was established in 1991 by Terna Public Charitable Trust (TPCT). The institute is affiliated to the University of Mumbai & is approved by the All India Council of Technical Education (AICTE). It is spread over a picturesque 5 hectare campus complete with all the infrastructure & amenities. It runs four undergraduate courses namely Electronics & Telecommunication, Electronics, Computer & Information Technology. In addition the college also runs post graduate course in the Electronics & Telecommunication branch. The college boasts of about 30 well equipped labs including an exclusive P.G.Lab and R&D centre. The institute also offers comprehensive programmes & hands on design experience in VLSI. Apart from the central library which has a collection of about 20000 books & 150 journals, each department itself is also equipped with its own library. The college has 150 highly qualified self motivated staff.

### ABOUT THE CONFERENCE

'equinox' is fundamentally an astronomical event when earth's axis is in equilibrium with the sun. We, at Terna, believe in equilibrium of technologies.

**equinox-2010** brings together researchers, academicians, industrialists and practitioners working in the field of computer and communication related technologies on a common platform with equal footing.

Information and Communication Technology is becoming an increasingly influential factor in education in the global world. The National Conference on Nascent Trends in Information and Communication technology (equinox-2010) is a multidisciplinary conference on information management, Electronics, Communication & Computer science and technology.

The perspective theme of the conference equinox-2010, is to serve as a medium for the exchange and dissemination of knowledge about emerging technologies and to provide a platform to researchers to come out with their ideas in these relevant fields.

### Area of Interest (but not limited to) :

#### THEME 1 (Electronics & Telecommunication Engineering)

- \* RF, Antenna, Microwave & Millimeter waves
- \* Advances in Cellular, Satellite, Mobile and Optical Communication Systems
- \* Embedded Systems & VLSI Technologies
- \* Nanotechnology
- \* Innovations in Control & Instrumentation for Non Conventional Energy Sources
- \* Simulation Tools for Designing Electronics & Telecommunication Devices
- \* Applications of Power Electronics & Solid State Devices

#### THEME 2 (Information Technology and Computer Engineering)

- \* Artificial Intelligence & Neural Networks
- \* Open Source Software
- \* Software Engineering & Software Testing
- \* Multimedia Systems
- \* Internet & Web Technology
- \* Database Technologies
- \* Mobile/Parallel/Grid/Cloud Computing
- \* Image & Speech Processing

### Awards:

Best Paper Award:

Theme 1:Rs. 3,000/-

Theme 2:Rs. 3,000/-

### Paper Submission:

Technical papers on all the above mentioned areas will be subjected to the following:
